In order to create an International Credit Report the following is required:

Borrower must obtain letters of credit reference (up to five) from their creditors in that county (i.e. credit cards, mortgages, landlords, loans, etc.)

- > Letters must be on company letterhead
- > Letters must have address and phone number of company.
- > Letters must have been signed.
- > Turn around time is 3-7 business days.
- > No credit score is provided.
- > Cost is \$125.

Because most countries do not rate their accounts as to payment history a credit report cannot be pulled from the system and therefore must be created manually. While a score cannot be generated on these reports, with the proper documentation, we can provide an accurate snapshot of a persons credit history who has not yet established credit in the United States.
