

Setting Up Credit Reporting Apps for Floify

Pulling a borrower's credit report via one of Floify's credit reporting apps is easy. After installing your preferred credit reporting app from your Floify dashboard, simply follow the required configuration steps below to get you and your team up and running in no time.

1. Log into your account on the provider's website (e.g. for Advantage Credit, this would be <https://www.advcredit.com/>). Once logged in, navigate to "My Account"

The screenshot shows the Advantage Credit dashboard with three main columns. The left column, 'Products & Services', includes links for 'Credit Verification' (Order Credit Report) and 'Property Verification' (Order Flood Determination). The middle column, 'Tools', includes links for 'Documentation Requests' and 'Total cost for borrower'. The right column, 'Helpful Tips', includes links for 'Ordering Credit Reports', 'Finding Ordered Products', and 'Total Cost for Borrower'. The 'Preferences & Announcements' section in the middle column contains links for 'My Account', 'Downloads', and 'Submit Feedback'. A red arrow points to the 'My Account' link. Below this section is a 'Recent Bulletins' table with columns 'Date' and 'Title', showing a bulletin from 11/21/17. At the bottom of the middle column are links for 'Find Ordered Products (Old Version)' and 'Settlement Services Worksheet (SSW)'. The right column also includes a 'Links' section with links for 'Loan Calculators' and 'ScorePlus Form'.

2. On the account page, there is a box for "Access Restrictions". Right-click in this box and choose "Add...".

The screenshot shows the 'Access Restrictions' section. It has a title 'Access Restrictions' and a sub-section 'IP Restriction'. Below the sub-section is a text box with the instruction 'Right click on the table to add or edit IP restriction.' and a question mark icon. Below this is a table with two columns: 'IP Address' and 'Description'. The table contains one row with the IP address '255.255.255.255' and the description 'Home'. Below the table is a button labeled 'Add...'. A red arrow points to the 'Add...' button.

3. Add the IP address 34.227.168.37 (this is the IP address for all MeridianLink-affiliate Floify credit report apps).

IP RESTRICTION

IP Address

Description

You can use a wildcard '*' in the IP address. Example: 128.201.200.* means to allow all users in the 128.201.200 subnet access.

Upload CSV 

No file chosen

4. Verify that the IP address shows up in the table, then click “Save” to save the changes to the account.
